INTRODUCTION

This guide provides specific format requirements for the preparation and submission of your official graduate thesis or dissertation at Georgia State University in the College of the Arts. These guidelines are intended to be the final word on the uniform style that graduate Arts theses and dissertations must possess. You should conform to the convention of your discipline’s style manual as well as the recommendations of your advisor and committee for detailed editorial advice.

The Thesis and Dissertation Guide is reissued every year, and it is the student’s responsibility to obtain the most recent edition to be sure that his or her document follows the current and acceptable format. The rules set forth in this guide take precedence over any previous publications issued by the Office of Academic Assistance, College of the Arts. Please do not consult or rely on older bound copies of theses or dissertations that may be available in your department.

Questions regarding the format of the thesis/dissertation not adequately answered in these instructions should be directed to the staff of the Office of Academic Assistance at cotaadvise@gsu.edu.

1 SUBMISSION PROCEDURES & DEADLINES

1.1 Initial Format Review

All students are required to provide one complete copy of the thesis or dissertation to the Office of Academic Assistance by the initial format review deadline (Please visit the The Office of Academic Assistance webpage and click on the appropriate semester’s graduation calendar for a list of actual deadlines: http://www.cas.gsu.edu/graduation-2/). Your thesis/dissertation is not required to have been defended by the initial format review deadline, but it does have to be a complete, formatted draft. If it has been determined by the Office of Academic Assistance that your document requires formatting corrections, these corrections must be completed in time for the final submission.

You may use one of two methods to submit your thesis or dissertation to The Office of Academic Assistance for the initial format review:

1. Dropbox Link – If your thesis or dissertation file is too large to be sent through email, you can send a Dropbox link to cotamanuscriptreview@gsu.edu. If you have an emergency and you will not be able to submit by 5 pm on the deadline, please email the format editor at cotaadvise@gsu.edu.
2. **Email your thesis/dissertation** – If your thesis or dissertation file size is relatively small, and does not contain many images, you can email it as a single Word or PDF document (LaTeX students) to the The Office of Academic Assistance’ general email account at cotamanuscriptreview@gsu.edu. “MANUSCRIPT FOR REVIEW” should appear in the subject line and the email should contain your intended semester and year of graduation. We will only accept pdf files from latex users. If you have an emergency and you will not be able to submit by 5 pm on the deadline, please email the format editor at cotaadvise@gsu.edu.

1.2 **Final Submission**

All students are required to upload a Word doc or PDF of their final thesis or dissertation to the library’s institutional repository, Scholarworks, by the final completion deadline (http://thearts.gsu.edu/how-to-apply/graduate-admissions/). No paper copies are accepted in lieu of the electronic submission. For tips on how to convert your final document to a PDF, see Appendix A in this guide. Your final thesis/dissertation may be uploaded to Scholarworks **only after:**

1. All revisions have been completed,

2. All formatting corrections identified by The Office of Academic Assistance have been made,

3. Your document has been successfully defended, and

4. Your official **signature page**, containing all of your original committee members’ signatures, has been submitted to The Office of Academic Assistance (a template for the signature page is available in section 6 of this guide). **NOTE: Do NOT include the signature page as a page in your thesis or dissertation; this is a separate document of its own, independent of your project.**

Once you have received approval for your thesis/dissertation format and you have submitted the original hard copy of your official signature page, you will be e-mailed the directions and a password for uploading your document to the library server. Please follow the instructions for performing the upload carefully. You will receive an automatic confirmation email after The Office of Academic Assistance has reviewed your submission to Scholarworks to ensure it was uploaded correctly and has manually transferred it to the University Library System. **PLEASE NOTE: Once your Scholarworks submission has been uploaded and approved, it is part of the University record and no further changes may be made to it.**

Revised November 12, 2014
1.3 Additional Requirements for Doctoral Candidates

Survey of Earned Doctorates: A completed Survey of Earned Doctorates must be submitted to The Office of Academic Assistance by the final completion deadline. This survey gathers data from all doctorate graduates each year and the responses become part of the Doctorate Records File, a virtually complete data bank on doctorate recipients from 1920 to the present. These data serve policymakers at the federal, state, local and university levels. The survey data are reported only in aggregate form or in a manner that does not identify information about any individual. Please complete the survey online: https://sed-ncses.org. You will need to provide a confirmation email to the Graduation Auditor for clearance.

ProQuest Electronic Submission Process: As of Fall 2013, ProQuest submission for doctoral candidates is *OPTIONAL*. Previously, every dissertation produced at Georgia State University was required to be on file in microfilm format and available through interlibrary loan as indexed in Dissertation Abstracts. The agent for this process is ProQuest Information and Learning. The Office of Academic Assistance no longer requires that every doctoral candidate submit their dissertation electronically via ProQuest. If graduates would like to submit their materials electronically prior to graduation, they may do so at www.etdadmin.com/gsucas. If you choose to publish with ProQuest, your abstract will be made publicly available through ProQuest's Dissertation Abstracts database.

1.4 Restricting Access to Scholarworks

The Georgia State University library’s institutional repository, Scholarworks, publishes your work to the internet, making it publicly available and affording you a better chance of citation and use by the scholarly community. If you wish to restrict access to the distribution of your thesis or dissertation, you must obtain written approval by the Associate Dean for the College of the Arts before uploading it to Scholarworks. For more information on the embargo process, please contact Tony Davis.
2 GENERAL FORMATTING REQUIREMENTS

REGARDLESS OF THE STYLE USED, THE FINAL DRAFT OF THE THESIS OR DISSERTATION MUST COMPLY WITH ALL THE REQUIREMENTS DESCRIBED IN THIS FORMATTING GUIDE.

You are responsible in the preparation of your thesis or dissertation for proofreading and editing the final version of your document, thus it is ultimately your responsibility to present for approval a document of professional quality, free of errors. The Office of Academic Assistance does not prescribe a particular style of writing, but departments and committee members often do. Consult your committee chair to determine the internal arrangement within the text and reference sections, and on matters of style. The following sections specify the general format and organization that must be followed in preparing the final copy of your dissertation.

2.1 Page Size

All pages of a thesis or dissertation must be printable on the standard U.S. paper size: 8.5 x 11 inches.

2.2 Margins

Margins must be consistent throughout the document (they should be exactly the same on each page of the same type). Centering is always done relative to the text area (i.e., within the margins), not the page edge.

Side Margins: The left and right margin must be set at 1 inch for all pages. EXCEPTION: If you are submitting a copy for binding, you will need to change the left margin to 1.5 inches on the printed copy only. Please note, the minimum 1 inch side margin applies to your tables, figures and schemes as well. Top Margin: The top margin must be set at a minimum of 1 inch for all pages. You may elect to use a 1.75 inch top margin on your preliminary pages as well as the first page of each chapter.

Bottom Margin: The bottom margin must be set at 1 inch. Text must not fall below the 1 inch bottom margin, including footnotes when they appear at the bottom of the page. EXCEPTION: Page numbers inserted into the footer may fall below the 1 inch margin.

2.3 Justification
The preferred justification is the default “ragged-right,” with your type aligned on the left and unjustified on the right. You may fully-justify your type (creating extra spacing between words so that the text is perfectly aligned along the left and right margins) only if the resulting spacing is pleasing and not excessive.

2.4 Page Numbering

Your abstract, title page, copyright notice and electronic approval page should not physically display a page number. The first page of your document that should physically display a page number should be your dedication or acknowledgments (it may also be your table of contents if you choose to omit the dedication and/or acknowledgments). This page will show a roman numeral iv (not a roman numeral v, as the abstract is not technically assigned a page number). Your subsequent preliminary pages will be assigned consecutive roman numerals (v, vi, vii...). The first page of your introduction or first chapter will begin with an Arabic numeral 1. Your subsequent text will then be assigned consecutive Arabic numerals (2, 3, 4...). For tips on how to accomplish this in Word, see Appendix C in this guide. Placement of your page numbers must be consistent throughout the document, whether they are roman numbers in the preliminary pages or Arabic numbers in the text. You can choose to insert your page numbers in the top right-hand corner of your header, or in the bottom center or right-hand corner of your footer. Please do not insert page numbers in the left side of your header or footer. Regardless of placement of the page number, you may elect to suppress the page number on the first page of sections and chapters if you so choose.

2.5 Landscape-Oriented Pages

Page numbering for landscape-oriented pages must be set for the best on-screen readability, thus page numbers should appear in the correct position (consistent with the position of your other page numbers) when the page is viewed on a screen. This is usually what word processing software does by default when pages are changed to landscape layout within a document. NOTE: Landscape pages are turned so that they are portrait-oriented in bound copies, thus if your department requires you to obtain a bound copy, you may want to change the location of the page number in your printed version only.

2.6 Line Spacing
The body of the thesis or dissertation, the abstract and the acknowledgments must be **double-spaced**. Single spacing is allowed only in the following text:

- the abstract index words,
- footnotes,
- block quotations,
- tables and figures and their captions,
- bibliography entries (if single spaced, double-space between entries).

### 2.7 Font

**Font Size:** The body of the thesis or dissertation, the abstract and the acknowledgments must be in either 11 or 12 point font. **No font size larger than 12 point is acceptable throughout the body of the thesis or dissertation.** A smaller font size is permitted **only** in the following cases: footnotes, subscripts, tables, figures, documents reproduced illustratively and portions of the main text where the content absolutely requires a different font (e.g., computer code, different voices in a dialogue, etc.)

**Font Type:** The entire thesis or dissertation, including figure and table captions and all page numbers, must be typed in the same font style. The selection of the font type is very important. The font type should be one normally associated with a standard word processing program. Non-typical or non-standard fonts may not survive the conversion into PDF format or may cause the document to be excessively large. Anyone who is in doubt about the suitability of a font style should contact The Office of Academic Assistance for assistance.
2.8 Headings and Subheadings

The Office of Academic Assistance does not set specific style standards for the format of chapter headings and subheadings except for font size. However, there is a suggested format for heading style in the template provided by The Office of Academic Assistance. Students should refer to the standards set by their department’s choice of style manual. Regardless of the formatting style chosen, The Office of Academic Assistance does require that the style be applied consistently to all headings and subheadings throughout the document.

2.9 Widows and Orphans

No heading or subheading can appear at the bottom of a page with less than two lines of text underneath. If this occurs, the heading must be pushed to the top of the next page. In addition, the first or last line of a paragraph cannot be isolated by a page break.

2.10 Tables and Figures

All figures and tables must fit within the margins described earlier in the manual. Large tables and figures must be reduced in size in order to meet the margin requirements however, captions and page numbers should still appear at a normal size. Tables and figures may be rotated 90 degrees so that the bottom of the table or figure runs along the right edge of the page.

**Numbering:** Figures and tables must be uniquely numbered in one of the following two manners:

- associated chapter, section, subsection, and figure/table number designation, e.g., Figure 1.1.3.2, 1.2.2, 1.3.2.2
  
  etc...

- associated chapter and figure/table number designation, e.g., Figure 1.1, 1.2, 1.3, 2.1, 2.2, 2.3,
  
  etc...

**Placement:** A table or figure may be in one of the following positions:

- embedded in the text (should not have excessive blank space above or below the figure/table)
- placed on a separate page immediately following the text where it is first cited (no extra space should be left at the bottom of the previous page; the text should run continuously),
- at the end of its respective chapter.
- Tables and figures should not be found entirely at the end of the document.

Revised November 12, 2014
Table Captions: The number and caption of a table must be placed above the table using the “insert caption” function. The table and the associated caption must appear in the same page as the table. Captions must be formatted in a consistent style throughout your document.

Figure Captions: The number and caption of a figure must be placed below the figure OR on a separate page preceding the figure, using the “insert caption” function. Captions must be formatted in a consistent style throughout your document.

2.11 References

Treat the title of this section as you do those of all other sections/chapters, but do not number this section. Format the entries according to your department or discipline’s choice of style manual.

2.12 Appendices

Appendices should be placed after the bibliography. Treat the title of this section as you do those of all other sections/chapters, but do not number this section. Your appendices must fit within the required margins, even if they contain reproduced content or tables and figures. Appendices must be listed on the Table of Contents. If only one appendix is used, it should be titled “Appendix,” not “Appendix A.”

2.13 Journal Articles used as Chapters

In some departments, theses or dissertations may include as chapters, articles that have been or will be submitted to scholarly journals. This is an acceptable style however, you must be listed either as the sole author or the first co-author of each article used as a chapter. In addition, the general formatting requirements listed above also apply to articles used as chapters. You MUST apply a consistent style in your font, headings, subheadings, tables and figures throughout each article used as a chapter, as well as your general introduction and conclusion.

3 ORGANIZATION OF THE THESIS/DISSERTATION

Word documents submitted to The Office of Academic Assistance are organized into three sections - the preliminary pages, the text and the back matter. The list of the pages within each section and the order in which they should appear is as follows:

1. Preliminary
   Pages
   Abstract (required)
   Title Page (required)
   Copyright Page (required)
   Approval Page (required)
   Dedication (optional)

Revised November 12, 2014
Article style dissertations have a slightly different organizational structure. The list of the pages within each section and the order in which they should appear is as follows:

1. Preliminary
   Pages Abstract (required) Title Page (required)
   Copyright Page (required)
   Approval Page (required) Dedication (optional) Acknowledgments (optional)
   Table of Contents (required)
   List of Tables (required if tables used) List of Figures (required if figures used) List of Abbreviations (optional)

2. Text
   Introduction (linking all 3-5 articles together) Article 1 (with copyright info on first page) Article 2 (with copyright info on first page) Article 3 (with copyright info on first page) Conclusion

3. Back matter
   Endnotes (unless footnotes are used) Bibliography
   Appendices
4 GUIDELINES FOR THE PRELIMINARY PAGES

4.1 Abstract (required for every thesis/dissertation)

The abstract is a statement of the problem, the procedure or methods, and the results and conclusions. The abstract must also include a list of index words related to the topic and which can be used to find the document when searching the library’s database. The maximum word count for the abstract paragraph (not including the index words) is 350 words for dissertations and 150 words for theses and it should be double-spaced. No page number is assigned to the abstract.

4.2 Title Page (required for every thesis/dissertation)

The title page should not display a page number and MUST BE formatted precisely like the sample found in section 6 of this guide entitled “Sample Pages.” The year at the bottom of the title page is your graduation year, and the degree listed must be chosen from the following list of official degree titles (DO NOT abbreviate the degree or add your department name to the degree):

- Doctor of Philosophy
- Master of Art Education
- Master of Arts
- Master of Arts for Teachers
- Master of Fine Arts
- Master of Music

4.3 Copyright Page (required for every thesis/dissertation)

The copyright page should not display a page number and MUST BE formatted precisely like the sample found in section 6 of this guide entitled “Sample Pages.” You automatically own the copyright on your thesis or dissertation by virtue of the fact that you wrote it. It is not necessary to register the copyright with the Library of Congress in order to protect your exclusive right to the material in the document, but you may obtain this service for an additional fee through our office. For more information on registering your copyright, please contact The Office of Academic Assistance.
4.4 Approval Page (required for every thesis/dissertation)

The approval page should not display a page number and MUST BE formatted precisely like the sample found in section 6 of this guide entitled “Sample Pages.” The approval page includes the names of all the committee members as well as your month and year of graduation. PLEASE NOTE: The approval page is separate from the signature page. The signature page is the hard copy form you will have signed by your committee members and turn into The Office of Academic Assistance, but it will not appear in your electronic thesis/dissertation. The approval page is what will appear in your electronic thesis/dissertation and should list your committee members’ names, but will not contain their signatures.

4.5 Dedication Page (optional)

If you choose to include a dedication page, it will be the first page to display a page number and MUST show a lowercase roman numeral iv. All preliminary pages that follow the dedication will show consecutive roman numerals. The dedication should not be listed in the Table of Contents.

4.6 Acknowledgments Page (optional)

If you choose to include an acknowledgements page, it will display a lowercase roman numeral page number and must be listed in the Table of Contents.

4.7 Table of Contents (required for every thesis/dissertation)

The Table of Contents is the map to your document. Each entry must match the corresponding entry in the text exactly in terms of wording, capitalization, punctuation, page number, etc. A complete Table of Contents, including correct page numbers for each of the entries is required for the initial format check. The Table of Contents should be formatted so that the page numbers for each of the entries align perfectly along the far right margin with period tab leaders. The Table of Contents tool in Word is mandatory, as it allows linking between Table of Contents entries and the corresponding section in the text. The Table of Contents should not appear as an entry on the Table of Contents.

4.8 List of Tables (required if tables are used in the thesis/dissertation)

The List of Tables must be formatted to match the Table of Contents. Each entry must match the corresponding entry in the text exactly in terms of wording, capitalization, punctuation, page number, etc. The List of Tables should be listed on the Table of Contents. The List of Tables must also provide a linking function, which can be inserted as an index.
4.9 List of Figures (required if figures are used in the thesis/dissertation)

The List of Figures must be formatted to match the Table of Contents. Each entry must match the corresponding entry in the text exactly in terms of wording, capitalization, punctuation, page number, etc. The List of Figures should be listed on the Table of Contents. The List of Tables must also provide a linking function, which can be inserted from the References tab on Microsoft Word.

5 SAMPLE PAGES

This section contains samples/templates of the preliminary pages that are to be included in your thesis/dissertation, as well as the signature page that is to be turned in to the Office of Academic Assistance in hard copy form. The spacing of the examples on each of the sample pages should be followed to the best of your ability however, you do not need to use a ruler or count spaces in order to obtain a precise match. Please DO match the general structure and wording as closely as possible.
THESIS AND DISSERTATION EXAMPLE TO BE USED BY STUDENTS IN THE COLLEGE OF ARTS AND SCIENCES AT GEORGIA STATE UNIVERSITY

by

NORMAN BATES

Under the Direction of Hannibal Lector, PhD

ABSTRACT

The abstract paragraph is mandatory. Start the abstract paragraph here. Double-space this paragraph. Limit the abstract of a thesis to 150 words. Limit the abstract of a dissertation to 350 words.

INDEX WORDS: Sample keyword, Sample keyword, Sample keyword

DEDICATION

This page is optional. You do not have to provide a dedication or acknowledgments for your thesis or dissertation. You may write whatever you would like on this page. It should be double-spaced.
ACKNOWLEDGEMENTS

Again, this page is optional. You do not have to provide an acknowledgements section in your thesis or dissertation. You may use this section to express acknowledgement of those who have helped you with this document and your academic career. The acknowledgments should be double-spaced.

APPENDICES

The following appendices contain tips, hints and instructions for accomplishing some of the more difficult formatting requirements described in these guidelines. For answers to questions not addressed in these instructions, please contact Graduate Services (http://www.cas.gsu.edu/graduate_studies.htm).

Appendix A: *OPTIONAL* Converting Your File to a PDF

Before uploading your final thesis/dissertation to the library’s digital archive, you may convert your file to PDF format. Conversion can be undertaken in several ways. Most departmental computer labs in the College of Arts and Sciences are equipped with Adobe Acrobat software, which works to provide options for converting any word processed files into .pdf format. Sometimes OCR (optical character recognition) scanning programs can offer the same function.

1. Click the Microsoft Office icon in the top left corner of the screen.
2. In the drop down menu, go to “Save As”. This will give you another menu to the right; click “Adobe PDF”.

![Adobe PDF screenshot](image-url)
3. Once you’ve saved your file, a PDF will generate and open in a new window. Be careful to examine the .pdf version carefully to see that it conforms exactly to the approved document.
Appendix B: Accomplishing Pagination Requirements in Word 2007

1. Remove any page numbers you’ve already inserted into your Word file.
2. Remove all page breaks and section breaks from your preliminary pages. You will have to use the space bar or return key to move your information to the next page.
3. Do not assign or show numbers on the abstract, title, copyright, or approval pages.
4. Place your cursor at the bottom of the electronic approval page. On the toolbar go to Page Layout, then Breaks, then click Next Page.

5. In the toolbar, go to Insert, then Page Number, Top of Page and click Plain Number 3.
6. When the header and footer toolbar appears, click on the icon “Link to Previous,” ensuring that it is grayed out and your section 2 header and footer no longer says “Same as Previous.”

7. In the toolbar, go to Page Number then click Format Page Numbers.

8. In the Page Number Format box, choose the desired number format (this will be lowercase roman numerals for the preliminary pages). Indicate the correct starting page number in the “Start at:” field.
9. Once you have seen that page numbers proceed correctly through the end of the preliminary pages, put your cursor on the bottom of the last of your preliminary pages (immediately preceding the first page of your first chapter).

10. Repeat instructions four through seven, only this time choose Arabic numbers and "start with page 1." AGAIN, BE CERTAIN THE LINK TO THE PREVIOUS SECTION IS TURNED OFF.

11. This should give you a "1" on the first page of the text and carry you through sequentially to the end.
Appendix C: ProQuest ETD Submission Instructions for Doctoral Students *OPTIONAL*

Beginning Fall 2013, Graduate Students in the College of Arts and Sciences are no longer required submit their manuscripts electronically to ProQuest. ProQuest submission is now optional. If you would like to submit your dissertation to ProQuest, please be advised that electronic submission is now the method for transferring files to ProQuest.

Upload your dissertation to the UMI-ProQuest site at www.etdadmin.com/gsucas.

Once you have logged on to the ProQuest site be sure to:

a. Select traditional publishing (unless you wish to pay the additional fee for open access publishing, $95).

b. Respond “yes” to the question “I want my work to be available in ProQuest as soon as it is published” (You will still be able to embargo your dissertation if you have any patents pending or if your manuscript contains politically sensitive material).

c. Please be aware that Copyright through the Library of Congress is *OPTIONAL* -- your document is copyrighted once it is uploaded to GSU’s Scholarworks Digital Archive. The copyright service offered by ProQuest is unnecessary. If you decide you would like to request copyright services from ProQuest, there is a fee of $55 (You will pay the fee online).

If you have any questions or concerns, please contact Chad Van Gorden at cvangorden1@gsu.edu

or

Please visit ProQuest FAQs for additional information and instructions.
Appendix D: Thesis/Dissertation Checklist

To ensure you successfully graduate in your intended semester:

Make sure you are in compliance with the continuous enrollment policy.

Check the The Office of Academic Assistance website (http://thearts.gsu.edu/how-to-apply/graduate-admissions/), to familiarize yourself with the appropriate requirements and deadlines.

Download the thesis/dissertation guide and all required paperwork for your degree.

Examine your thesis/dissertation closely to ensure that it conforms to the formatting and organizational requirements listed in the thesis/dissertation guide.

Submit an initial electronic draft of your Word document to The Office of Academic Assistance by the appropriate deadline.

Schedule your defense if you haven’t already done so. Please be aware of the deadlines for the final submission of your document so that you have enough time after your defense in case you need to make any changes to your work.

Submit the “Information for Commencement” form to the Commencement Office in Sparks Hall (doctoral candidates only).

Turn in the original hard copy of your signature sheet, signed by each of your committee members, to The Office of Academic Assistance.

Turn in your completed “Survey of Earned Doctorates,” “Publishing Agreement Form” to The Office of Academic Assistance (doctoral candidates only).

*OPTIONAL* Complete the ProQuest ETD submission process (doctoral candidates only)

*OPTIONAL* Convert your final thesis/dissertation to a PDF (Scholarworks has a Word to Pdf conversion function)

Upload your manuscript to the Scholarworks server.

Submit printed copies of your thesis for binding, as well as the completed “Binding Deposit” form and fee, to The Office of Academic Assistance by the appropriate deadline.
